

Tommaso Pacini

Data Analyst IT Technician

Young IT Professional with 5 years of experience in both hardware and software, specializing in data management and analysis. Motivated and eager to learn, explore various aspects of the field, and continuously improve. Skilled in problem-solving and data management, always ready to adapt to emerging technologies. Desiring to grow professionally in an environment where innovation and continuous learning are top priorities.

Work experience

Project Management Operator

2025
Current

Hermes Trade S.r.l, Florence

- Supported Major and Minor projects across the full lifecycle, attending project review meetings.
- Tracked KPIs, resource usage, and actual vs budget costs through variance analysis.
- Built custom Excel reports and VBA macros for Project Managers to automate cost tracking and workflows.
- Managed project schedules in Microsoft Project, running weekly progress calls with cross-functional teams.
- Collaborated with PM, Engineering, Finance, and Operations to ensure budget compliance.

IT-BI Specialist Celine Production

2025
Current

Hermes Trade S.r.l, Florence

- Developed and maintained Power BI dashboards, ensuring data reliability and usability.
- Monitored data pipelines and performed data quality checks via SQL on Google Cloud Platform (GCP).
- Managed inventory updates in JD Edwards (Oracle JDE) and supported PLM system and data migration.
- Handled the full incident lifecycle in ServiceNow, working with Celine's HQ in France on business requirements.
- Supported the coordination of the transition from the legacy PLM system to the new platform.
- Provided business analysis support for Power Apps solutions, translating business needs into functional requirements.

BI Specialist

2022
2024

S3K Security of Third Millenium, Firenze

- Tableau Expertise: Use and knowledge of Tableau Server and Desktop for maintenance and development of virtual dashboards.

Design & Web Projects

UX/UI Designer

January 2025
Current

Freelance & Personal Projects, Florence

- **ETS Wind S.r.l. (etswind.com)**: designed and developed the full website end-to-end, from UX/UI design to deployment, using HTML, CSS and JavaScript.
- Delivered a production-ready site with mobile-responsive redesign, SEO setup, Google Analytics, cookie consent management (CookieYes) and legal pages (Privacy & Cookie Policy).
- Managed hosting and continuous deployment via GitHub and Cloudflare Pages, including DNS configuration.
- **Personal Portfolio (tommasoopacinii.github.io)**: designed a custom design system (typography, color palette, components) and migrated the site from Frammer to hand-coded HTML/CSS, including UX/UI case studies developed in Figma.
- **AVANTI – Mobile App (in development)**: designing and developing a mobile app with React Native and Expo, from UX research and wireframes to implementation.

Education

High School IT Diploma

2021

I.T.I.S. Tullio Buzzi

- Graduation Score 81/100

About me

Data analyst with a strong passion for graphic and UX/UI design. Creativity is my greatest strength: through freelance projects and continuous self-study, I have learned to take a website from concept to a complete, compliant, production-ready product. I am now looking for a role where I can grow and fully develop my design skills within a team.
